#### **Getting the Gig: Mock Interviews (Speed Dating Style)**

Preparing to interview this year? Join the Preservice and Supervision Division in a round of Mock Interviews and receive insightful feedback to develop your skills and ensure you get the gig! Preservice members will have practice answering interview questions in one-on-one mock interviews with Supervision Division members and receive feedback on their interview. The purpose of the mock interview is to better prepare the Preservice member for interviews with supervisors and principals in their home districts. Each Preservice member will be expected to come prepared as if this was a real interview: dressed to impress, resumes printed, and portfolio (digital or printed) ready to be shown. This workshop provides a great professional development opportunity for the Preservice participants to learn from the Supervision Division professionals who will provide valuable feedback on how to develop and improve their interview skills. *Open only to NAEA Members who are Preservice or First Year Professional.* Located in the Convention Center.
