

VIEWING QUESTIONS: ASPEN SMALL GROUP DISCUSSION

Videos often can be used to spark discussion. For training purposes, we are making copies of the video available for you both with questions and discussion points embedded within the presentation. If you are working with a group, you can stop the video when questions or discussion point appear, talk about them and then resume watching the video.

Click here to see the video:

Focus Points Embedded in the Training Version (available above) of the Aspen Small Group Discussion

Watch for the moderator to:

- Encourage participation
- Document what's being said
- Keep the conversation moving forward
- Funnel the thinking from small group discussions back to the larger group

Focus Question

What does it take to run a good discussion?
